

Get Started:

- If you could have any kind of cool new restaurant or fast-food place in town, what would it be like and what kind of food would they serve? (Not an existing restaurant or chain but a new idea for your area.)

Team Activity: Create a Winning Restaurant Concept for Your Town

An investment company is in town looking for students and adults to pitch them a restaurant concept that would be a big seller. Working with your team, you will have 10 minutes to create a cool new restaurant idea, including:

- Type of food (e.g., burgers, pizza, something else)
- Restaurant name
- Three signature items for the menu
- A slogan to promote the restaurant

You'll pitch your restaurant concept to the class. Everyone will vote on which concept would be the biggest seller, but you can't vote for your own.

[If you have additional time, you can create a poster, PowerPoint, or flier to promote your restaurant and research restaurant trends that reinforce your idea.]
